## Information about Library Resources

### INTEGRATED LIBRARY MANAGEMENT SOFTWARE (ILMS)

The College has E-Granthalaya Library Software of version 3.0. It is a complete solution for library automation. It has been developed by the Library & Information Services Division, National Informatics Centre, Department of Information Technology, Ministry of Communications & Information Technology, Government of India, New Delhi. The software runs on windows platform in client/server mode. The infrastructure requirements (hardware, operating system, database management software, internet connectivity, etc.) for using the software are specific. E-Granthalaya 3.0 uses MS SQL Server (any edition) as backend database software and VB.NET/ASP.NET 2.0 as frontend solution. Express edition of SQL Server is provided free along with e-Granthalaya software.

The software is made available free of charge to libraries under e-governance initiative of the Government of India. However, the recipient library has to pay the charges for installation of the software, training of staff and post-installation technical support and service.

E-Granthalaya is complete and integrated bibliographic software. It is user friendly. It covers the following modules:

- (1) **Administration:** Enables to enter default values, user authentication data and information used by other modules.
- (2) **Book Acquisition:** Helps you to carry out acquisition functions (ordering, receipt, reminders, accessioning, bill processing, etc.) in a library.
- (3) **Cataloguing:** Useful for cataloguing books, reports, manuals, etc. in a library. It is possible to indicate the following about a document:
  - Language (Hindi, English, Marathi, Kannada, etc.)
  - Physical Format (Print, CD-ROM, Floppy, etc.)
  - Multiple Volume, Single Copy, Multiple Copies
  - Acquisition Mode (Purchased, Gratis, Exchange, Subscribed)
  - Binding Type (Hardcover, Paperback, etc.)
  - Accompanying Material (CD, Floppy, Chart supplied along with a book)
  - Section (General, Reference, Textbook, Book Bank)

translator, publisher, keyword, broad subject (or course), classification number, language, accession number, etc.

- (9) Further the librarian can manage newspaper clippings information using this software. Also institute and other publications (project reports, question papers, syllabus, theses, seminar papers, etc.) can be digitized, catalogued, indexed; and the user can retrieve information and see the full text of such documents. It is possible to integrate e-books in e-Granthalaya software.
- (10) **Z39.50 Protocol:** In the case where internet connectivity is available, it is possible to upload or import catalogue records from the Library of Congress and other libraries so that there is no need to enter bibliographic details manually in the database. This feature is known as copy cataloguing in library parlance.
- (11) **Multilingual (Unicode) Facility:** Apart from books in English language, it is possible to enter information about books written in Indian regional languages such as Marathi, Hindi, Gujarati, Kannada, etc. The software is Unicode compliant.
- (12) **WebOPAC (Online Public Access Catalogue):** Provides access to complete backend database for searching which includes options from a simple search to an advance search. It is especially useful for faculty and students. OPAC gives web-based access to books, journals, etc. to make your library's database available on the LAN or intranet and internet.
